

JAVA Developer Wanted

The Parelli method allows horse lovers at all levels and disciplines to achieve: success without force, partnership without dominance, teamwork without fear, willingness without intimidation, and harmony without coercion.

Founded in 1981 by lifelong horseman and teacher Pat Parelli, the Parelli Program combines common sense psychology and communication. Unlike many training programs, the Parelli method teaches the human, not the horse. Early on, Pat realized that horses already had all the skills they needed to thrive and relate with their kind. It was adding the human element that complicated things.

We are looking for a motivated and energetic individual to provide software analysis & development skills specializing in the Java programming language at the Parelli Corporate office in Pagosa Springs, CO (must be willing to relocate).

Position Requirements:

- Strong object oriented development experience
- Experience of the full software development lifecycle: from business/systems analysis, through requirements gathering and functional specification authoring, to development, testing and delivery
- Programming in enterprise Java (j2ee,ejb3,jsp,jsf)
- SQL language skills
- Strong verbal and written communication skills
- Most importantly, we are looking for a bright, positive person who is committed to the team and the ability to work within tight deadlines.

Our Ideal Candidate:

- comfortable with database design.
- advanced SQL Skills.
- strong understanding of the JBOSS application architecture.
- has a willingness to propose and provide business development solutions.
- has a strong desire and ability to learn.
- has commercial experience in web application development and or software development.

- has Linux experience.

Please send cover letter and resume to be considered for this position to jobs@parelli.com with “JAVA Developer” in the subject line.
